Introduction

The Handbook of Employment Exchange Statistics contains information about number of employment exchanges, registration, placement, vacancies notified and number of job-seekers on live register of employment exchanges in the country during the period 1947 to 2014. Information for different categories of job-seekers such as Schedule Caste, Schedule Tribe, Other Backward Classes, Physically Handicapped, Ex-ITI and full term apprenticeship, etc. has been provided for the period 1990 to 2013. State wise information has been provided from 1980 to 2014. The information used in the Handbook has been collected from data recorded on Registers maintained by Stats (E) section and various Annual Publications entitled "Employment Exchange Statistics" of DGE&T, Ministry of Labour and Employment.

Time series data relating to registration, placement and live register of job seekers by categories are frequently required by official and non-official users. Demand for information increases more by officers of this Directorate and by other ministries during Parliament session for preparing draft replies of Parliament questions and also furnishing information to other ministries. In view of such pressing need of employment exchange statistics, the Handbook has, therefore, been prepared to serve their purpose.
