**ALPHABETICAL INDEX  
OF  
OCCUPATIONAL TITLE**

**This Index contains the titles of Occupations in the alphabetical order, along with the corresponding code numbers of 2004 and 1968. Occupations which are included as new Occupations in the Index do not have corresponding codes in the 1968 column. Effort has been made to incorporate all titles of NCO-68. This index provides access to users in identifying Occupations and their code numbers of revised NCO and its equivalent Code number of 1968 version. Owing to introduction of concept of skill level and new aggregation at six-digit level, the code structure of revised NCO has radically changed. Resulting in breaking up of Divisions, Groups and Families and distribution of Occupations of 1968 version in to revised system. Wherever code numbers showing the exact equivalents were not identifiable, effort has been made to find the nearest code number.**

**Titles consisting of two or more words are indexed, in alphabetical order, wherever necessary and appropriate, according to each word, particularly the functional or operative and descriptive word, for example, Machine Grinder, Surface Grinder, Lens Grinder, etc. have been classified not only under the alphabets M, S, and L, but also under G, using the Operative word “Grinder”. Instances of other operative words are: Assembler, Attendant, Clerk, Cutter, Director, Driver, Engineer, Machinist, Maker, Manager, Marker, Mechanic, Operator, Teacher, Working Proprietor, etc. Where Occupational titles are common to several industries, the appropriate industries/process has been indicated in brackets at the end of the Occupational title.**
