The government of India has allowed 100 per cent Foreign Direct Investment (FDI) in the mining sector and exploration of metal and non-metal ores under the automatic route, which will propel growth in the sector. The Government of India is taking steps boost the country's domestic steel sector and raise its capacity to 300 million tonnes (MT) by 2030-31. Power and cement industries also aiding growth in the metals and mining sector. Given the strong growth expectations from residential and commercial building industry, demand for iron and steel is set to grow. – (Source: India Brand Equity Foundation, www.ibef.org)
