Department, Placement Organization of the NCS Portal.

Benefits of Video Profile:

Jobseekers will be able to put the best foot forward by displaying their short video clips to the employers through the portal. Video Profile is beneficial as it adds more appeal to a traditional resume or application of a user. This will also help the user to stand out from the crowd and increase the chances of getting shortlisted by various employers registered on the portal. Jobseekers can login to their account and go to the "Video Profile" option in the left panel of jobseeker's dashboard to take them to the video creation platform. Atleast two videos i.e. "About Myself" and any one of the other should be created by the jobseeker.

Conversely, **Employers/Government Departments/Placement Organizations** registered on the portal will be able to view the candidates profile and can assess him/her in a better and effective manner. Overall, this feature will make the candidate's search easy for the numerous employer type stakeholders of the portal. An Employer can easily view the video profile of a jobseeker by clicking on the jobseeker's name showing under "Jobs & Responses" tab, while searching candidates against a particular job. The complete video profile of the jobseeker can be viewed by clicking on the links of video profile under his/her Resume". The handicrafts sector is important for the Indian economy as it is one of the largest employment generators and accounts for a significant share in the country's exports. The state and regional clusters contribute significantly to handicrafts export. The Indian handicrafts industry is fragmented, with more than seven million regional artisans and more than 67,000 exporters/export houses promoting regional art and craftsmanship in the domestic and global markets.

Indian handicrafts are exported across geographies, with the top 10 destinations being the US, the UK, the UAE, Germany, France, Latin American countries (LAC), Italy, the Netherlands, Canada and Australia. Handicraft exports from India increased by 6.44 per cent year-on-year during 2018-19 with US\$ 3.80 billion. During April-November 2019, export stood at US\$ 2.45 billion.

Government of India increased incentive rates under the Merchandise Export from India scheme (MEIS) to 7 per cent from 5 per cent for handicraft items which will help exporters to recover the input costs which are involved in the production of handicrafts, which will also lead in competitive pricing and also boost exports. – **(Source: India Brand Equity Foundation, www.ibef.org)**
