## NCS API INTEGRATION WITH PRAYAS PORTAL

**PRAYAS (NIC)** is a data-driven framework that enables government to visualize progress of its flagship schemes on a single platform and monitor their progress through identified Key Performance Indicators (KPIs). It also helps to generate actionable insights to assess implementation and reach of different flagship schemes across various dimensions, such as Sector, Department, State and District as well as on a time scale.

In a pivotal move, the National Career Service (NCS) seamlessly integrated its services with the Prayas portal. NCS initiated the collaboration by sharing its API with the Prayas team, fostering a connection between their platforms. Data exchange ensued, spanning from the initiative's inception to October 31, 2023, encompassing jobseekers, employers, and vacancies.

Prayas further enriched the partnership by transforming shared data into insightful visualizations. Notably, these visualizations were reciprocally shared with the NCS team, offering a clearer understanding of the progress of the scheme, facilitating mutual insights, and informed decision-making. The last data sharing was done on 31<sup>st</sup> January 2024.

## NCS API INTEGRATION WITH DISHA PORTAL

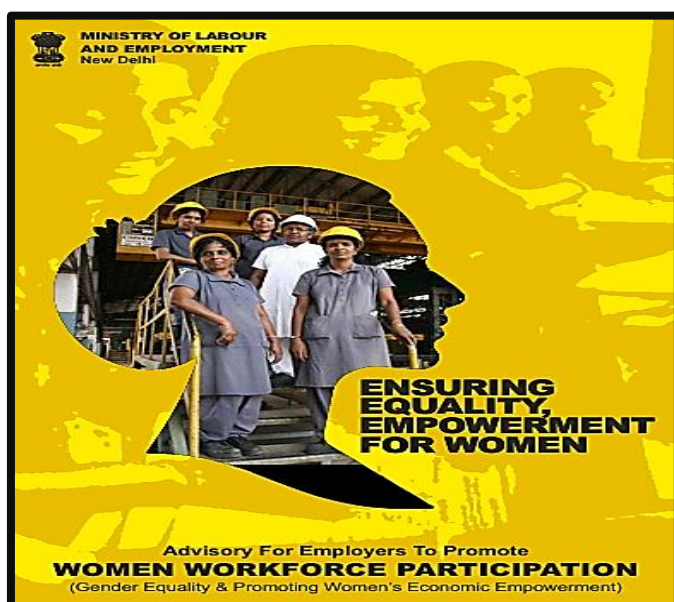

**District Development Coordination and Monitoring Committees (DISHAs)**, Ministry of Rural Development, have been constituted under the chairpersonship of Members of Parliament for monitoring the progress of development programs/schemes of the govt., and efficient & time-bound development. Similarly, there is a DISHA committee at State Level. The dashboard displays the progress of programs/schemes, bottlenecks in the implementation, identify irregularities, and to help in planning process.

The National Career Service (NCS) has embarked on a pivotal initiative by integrating its services with the DISHA portal, aiming to enhance accessibility and efficiency in career services. This integration commenced with NCS proactively submitting essential data to the DISHA team, encompassing key parameters related to job seekers, employers, and vacancies. After receiving the go-ahead for KPIs & the data from the DISHA Team, the final API integration was initiated in January 2024.

The National Career Service (NCS) is thrilled to integrate with the DISHA portal, recognizing the immense potential this collaboration holds for advancing the NCS scheme. By joining forces with DISHA, NCS aims to broaden its reach and impact, ensuring that its comprehensive career services are accessible to a wider audience.

## PROMOTING WOMEN WORKFORCE PARTICIPATION

The Ministry of Labour & Employment has taken a significant step towards promoting gender equality and enhancing women's workforce participation by releasing a comprehensive advisory to employers. This advisory underscores the importance of creating inclusive work environments that empower women and provide them with equal opportunities for professional growth.

Recognizing the multifaceted barriers that hinder women's participation in the workforce, the advisory outlines actionable strategies for employers to

adopt. These include implementing non-discriminatory hiring practices, offering equal pay for equal work, providing maternity and childcare support, and fostering a culture of respect and gender sensitivity in the workplace.

By actively promoting gender equality, employers not only contribute to the economic empowerment of women but also benefit from a more diverse and talented workforce. Research has consistently shown that companies with greater gender diversity perform better financially and are more innovative.

Moreover, the advisory serves as a guiding framework for organizations to align their policies and practices with national goals of gender equality and women's empowerment. Through collective efforts from both the public and private sectors, India can harness the full potential of its female workforce, driving sustainable economic growth and social progress.
